FOREWORD

Hon. Finance Minister Nirmala Sitharaman's 8th budget is anchored in the principles of inclusivity, sustainability, and innovation. It aims to empower every citizen, ensuring broad-based participation in the nation's growth story. At its core, it fosters a culture of innovation, leveraging technology and entrepreneurship to drive progress. The proposed development measures focus on Garib (Poor), Youth, Annadata (Farmers) and Nari (Women).

Budget 2025 sets a fiscal deficit target of 4.4% of GDP for FY 2025-26, a reduction from the current year's 4.8%, with four key growth engines: Agriculture, MSMEs, Investments, and Exports. The government's intent to stimulate rural and marginalized sections is evident through initiatives like the Building Rural Prosperity and Resilience Programme, the establishment of a Makhana Board in Bihar, enhanced loan accessibility for first-time women entrepreneurs from SC/ST communities and expanded coverage under MSME as well as increased credit guarantees for MSMEs.

For the Middle class, the proposed reforms in personal tax by raising the income tax exemption limit to INR 12 lakh will leave families with more disposable income, likely boosting e-commerce and retail consumption. Additionally, fast-tracked mergers may provide much-needed momentum to the M&A. Making TDS and TCS provisions simpler and easier with increase in limit for TDS in rentals & relaxation on TCS in case of foreign remittance under LRS, is a welcome move and will ease the burden of taxpayers.

Retrospective amendment in the GST domain to overcome Supreme Court Judgement in Safari Retreats' Case by denying Input Tax Credit (ITC) for the construction of immovable property used for further supply of services would adversely impact major industry players.

All eyes are on the upcoming New Income Tax Bill, set to be unveiled next week. The FM indicated that the new Income Tax Bill would be half in size as compared to the current legislature and a development that India would be keenly watching! Trust first, scrutinize later is the new mantra aiming to build a taxpayer friendly environment.

The budget announcement would boost the MSME sector by increasing threshold limits for classification and is expected to benefit more businesses. The investment limit has been increased by 2.5 times and the turnover threshold has been doubled, allowing more businesses to qualify as MSMEs and access various benefits and credit facilities. This move aims to empower small and medium enterprises, fostering a more inclusive and dynamic economic landscape, driving growth, innovation, and employment.

The Finance Bill proposals aim to simplify and streamline tax rules, focusing on personal taxation resulting in higher disposable income. The rules for two houses exempt from taxation have been simplified, allowing the annual value to be nil if the property is used as a residence or isn't occupied. This reduces tax liabilities for homeowners and supports the housing sector.

GST Amendments in Budget 2025 implement many recommendations of 55th GST Council Meeting. The amendments bring clarity for Input Service Distributor Mechanism, Sale of Warehoused Goods from SEZ /FTWZ and give enabling power to ensure the smooth functioning of the Invoice Management System. The retrospective amendment to nullify the Supreme Court Judgement of Safari Retreats for allowability of Input Tax Credit will have a substantial impact on trade. Introduction of Track and Trace Mechanism for specified goods at each stage of supply by affixing a UIM will be a concept to be tested in India. Training of Staff and upgrading of IT infrastructure on a war footing is the need of the hour for the entire trade.

In the Union Budget, alongside establishment of Centre for excellence in artificial intelligence (AI), a Deep Tech Fund was announced with a government contribution of ₹100 billion.
